

Hydraulic/Foot operated type

HLH Aluminum

Load capacity: 110 to 176 lbs

HLH-A50

During lowering

This cart has been made lighter by using aluminum as product material. It is ideal for lifting/lowering and transporting heavy items on the go. It is also equipped with a handle to make it easier to carry around.

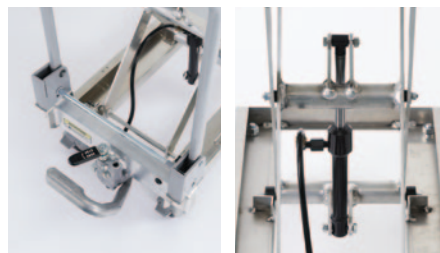

Major features of the HLH Series

- ☐ Hydraulic cylinder
- ☐ Casters with brakes
- ☐ Foot pedal type
- ☐ Comes with an overloading prevention device *1

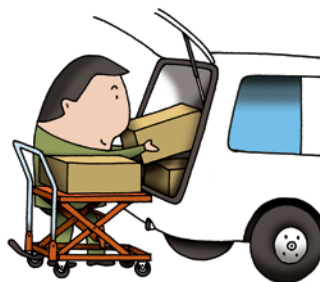

Major specifications

Oil used	Turbine oil: ISO VG22		
Materials	Pump	: Aluminum	
	Cylinder	: Aluminum	
	Main body	: Aluminum	

*1 The lifter will not elevate when overloaded.

Can be easily carried onto your vehicle with loads.

Unit: inch

	Model	Load capacity	Table dimensions W × L	Stroke	Table height	Overall length	Wheels	Number of pump steps	Deadweight
Aluminum	HLH-A50	110 lbs	13.8×22.4	15.7	7.9 to 23.6	31.5	φ3.9 rubber	Approx. 6 times	25.1 lbs
	HLH-A60	132 lbs	15.7×28.3	19.7	8.7 to 28.3	37.8	φ3.9 rubber	Approx. 7 times	30.1 lbs
	HLH-A80	176 lbs	19.7×31.5	21.7	9.1 to 30.7	40.6	φ3.9 rubber	Approx. 14 times	44.1 lbs
